### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James C. Scheller, Jr. Reg. No. 31,195 on 6/15/2010.

The application has been amended as follows:

For claim 7, on the first line, the phrase "a disk guide" is deleted from the claim.

For claims 20 and 33, on the first line of each claim, the phrase "a disk guide" is changed to -- the disk guide --.

### *Allowable Subject Matter*

2. Claims 1-2, 4-12, 15-26, 28-30 and 32-36 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As the closest reference, Zapalski in view of Kan-o further in view of Selby discloses a computer system comprising:

an enclosure;

an optical drive coupled to the enclosure;

a functional bezel having a first opening to receive an optical disk and a first plurality of attachment features; and

a cosmetic bezel having a second opening to receive the optical disk and second plurality of attachment features, the cosmetic bezel rigidly coupled to the functional bezel

through a coupling of the first and second attachment features, wherein the first opening and second opening are in alignment;

wherein the cosmetic bezel is rigidly coupled to the functional bezel to form a bezel assembly.

a cosmetic screen disposed adjacent to the functional bezel and the cosmetic bezel and fixedly attached to one of the functional bezel and the cosmetic bezel.

Kan-o discloses an apparatus comprising a cosmetic bezel having an opening to receive the optical disk with a felt attached to the cosmetic bezel.

Selby discloses a disk guide mechanism for a CD player. Ramp-like guide features are placed on both top and bottom sides of a loading slot, which are capable of preventing improper insertion of CD medium.

Zapalski, Kan-o and Selby as combined, fail to show “*the disk guide wherein the disk guide includes a ramp feature forming a lower surface of an opening having a ramp up toward an external side to point the optical disk downward into an optical drive during injection and to point the optical disk upward during ejection*”, as recited in claim

1.

Claims 12 and 25 are allowed for the same reasons as for claim 1.

These features, in combination with the other features of the claims, are not anticipated by, nor made obvious over, the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
